

Valerio Santoni

Digital Product Associate · AI & Business Transformation

Geneva, Switzerland | valeriosantoni7@gmail.com | linkedin.com/in/valeriosantoni | valerioswiss.com

I turn data and AI into tools people actually use. Now Digital Product Associate in AI & Business Transformation in Geneva, working on AI features in Salesforce and Slack, a self-service partner portal and product analytics; previously Business Intelligence at UBS Zurich and Data Analyst at Philip Morris International in Lausanne. Double-degree Master's (Clermont 4.0/4.0, Pavia 108/110). Nova Talent member. Lived and worked across Italy, France, Germany and Switzerland.

PROFESSIONAL EXPERIENCE

Digital Product Associate, AI & Business Transformation
Sep 2026 – Present

World Economic Forum · Technology Strategy & Operations · Geneva

– Product owner of AI handover plans in Salesforce, drafted for each new partner from past interactions, web search and news: 5 improvements live in my first 6 weeks
– Requirements and testing for an AI assistant in Slack; new features for a self-service partner portal
– Product analytics (KPIs, Mixpanel dashboard, daily KPI report) and benchmarking of internal AI agents

Business Intelligence Specialist
Mar 2026 – Aug 2026

UBS · Personal & Corporate Banking – Marketing & Digital Sales · Zurich

– Client Intelligence and marketing analytics data foundations, incl. an online-onboarding (ROPO) analysis across 37k+ cases and 55k+ rows
– KPI logic, source mappings, Power BI dashboards, automated dataflows and SQL models for client journeys and live marketing and events reporting

Data & Reporting Engineer Intern
Sep 2025 – Feb 2026

UBS · Technology Function · Zurich

– Integrated IT asset and service management data on Azure Databricks into Power BI dashboards and dataflows; requirements, test cases and deployment with GitLab

Data Analyst Intern
Feb 2025 – Aug 2025

Philip Morris International · Brand Retail Deployment · Lausanne

– Aligned the BREPT database with ISquare in Python: found discrepancies across 1,500+ records and automated location reconciliation
– Designed Power BI dashboards reporting Q1/Q2 KPIs across the global retail ecosystem

Earlier
Feb 2022 – Jun 2024

Center for Global Strategic Engagement Intern, Università di Pavia (EC2U Alliance) · Disciplinary & Project Tutor, Università Politecnica delle Marche (Private Law, Design Thinking sprints)

AI PROJECTS — personal, @valerio.swiss, 2026

– **Automated content factory** — pipeline turning a short brief into branded carousels, reels and stories with data-driven motion graphics and captions in one pass. Remotion, React, TypeScript, Node.js, Claude
– **AI coaching workflow** — reusable Claude skill: client intake and CV into a call prep sheet with live notes, then a branded PDF plan and follow-up emails. Claude Code skills, Python, HTML/CSS
– **Operations cockpit** — single-file dashboard running the brand day to day: content previews with one-click captions, weekly plan, to-dos with saved progress. HTML, JavaScript, localStorage
